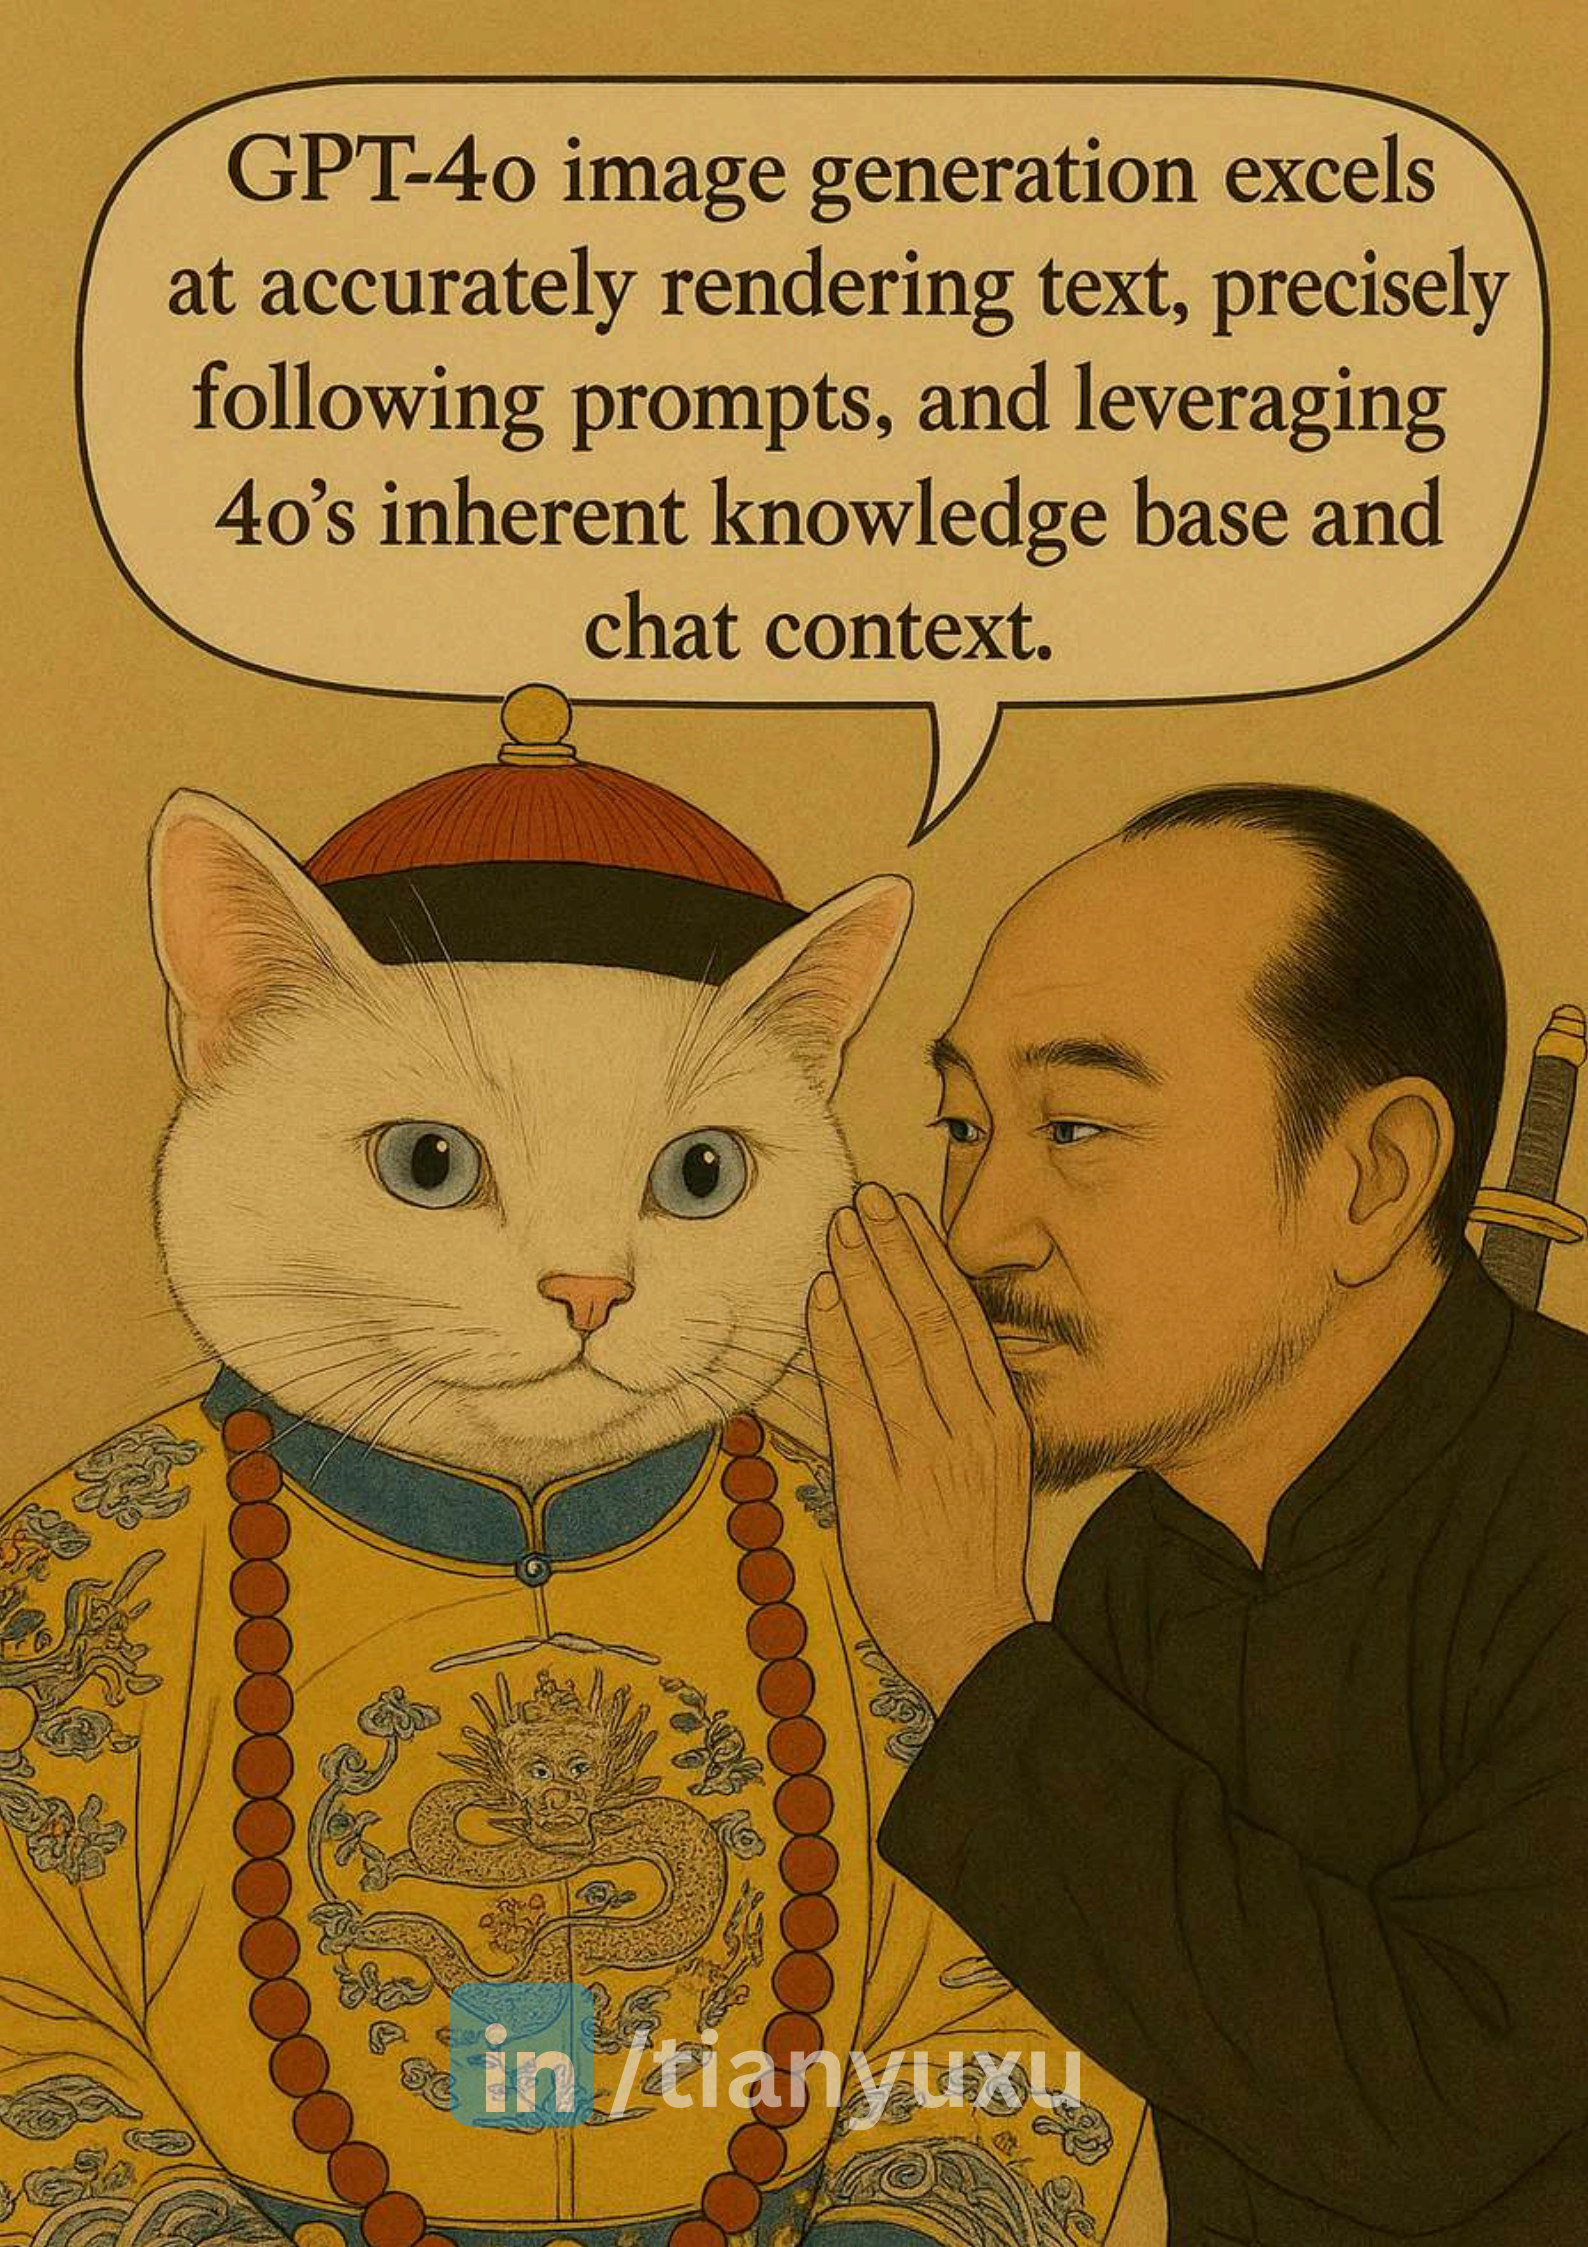
GPT-4o
IMAGE
GENERATION
in /tianyuxu



GPT-4o image generation excels at accurately rendering text, precisely following prompts, and leveraging 4o's inherent knowledge base and chat context.

SHOW ME
STEP BY STEP!
in /tianyuxu

There are two simple ways:
1) use GPT-4o directly inside ChatGPT, by just saying *genera te an image of something*, and
2) visit sora.com and generate images directly there. Both work smoothly

in /tianyuxu

CHATGPT

ChatGPT 4o

Generate an image that shows portrait photo of a white cat with blue eyes dressed in yellow suit with a black bow tie

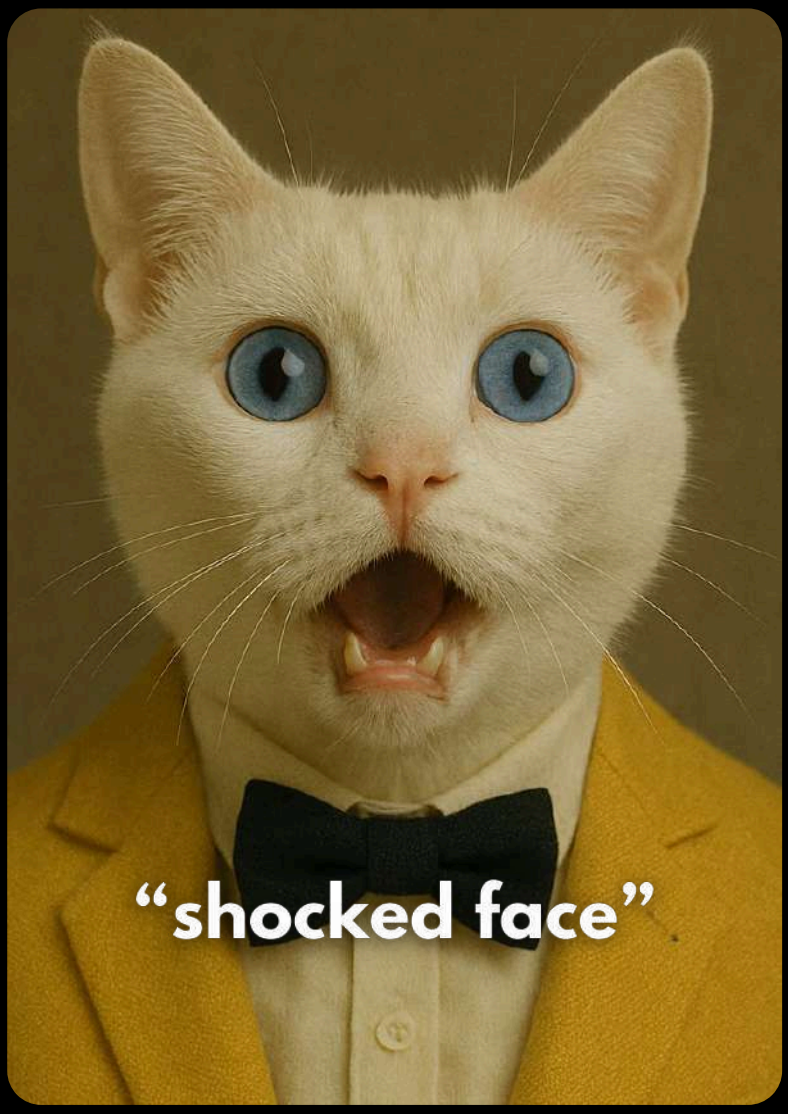
Original
(1st image)

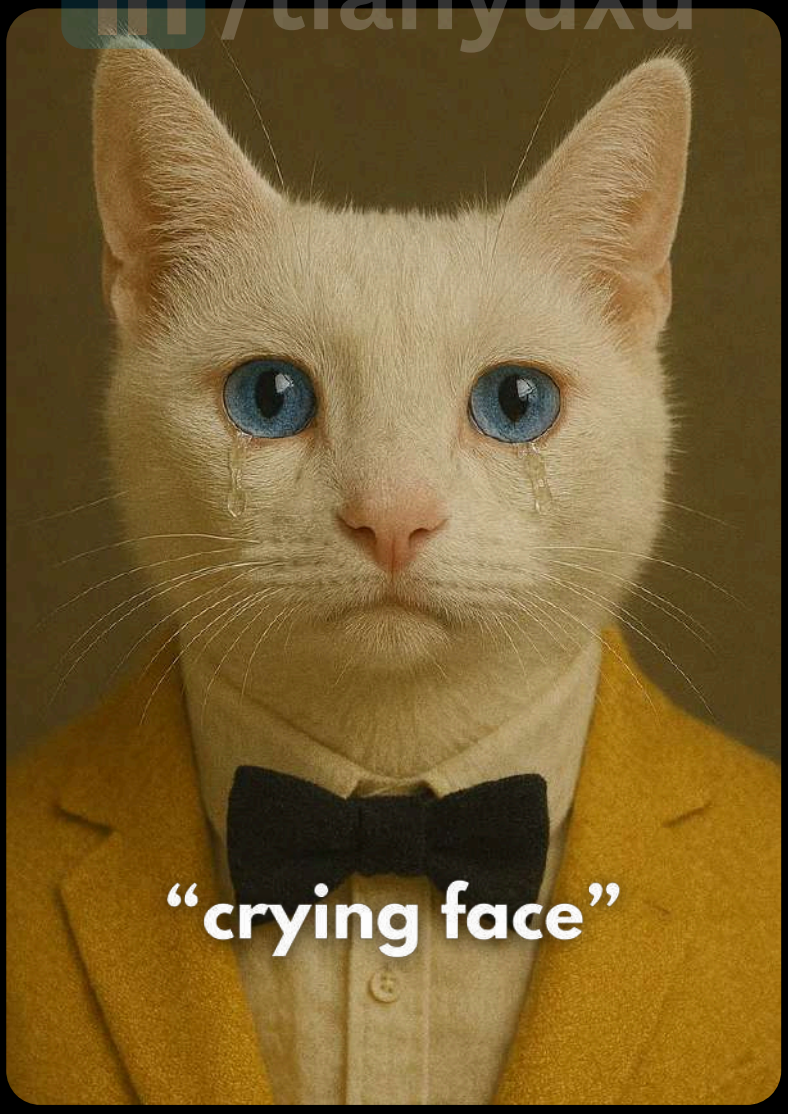
“low angle photo”

in /tianyuxu

“side profile”

“high angle photo”

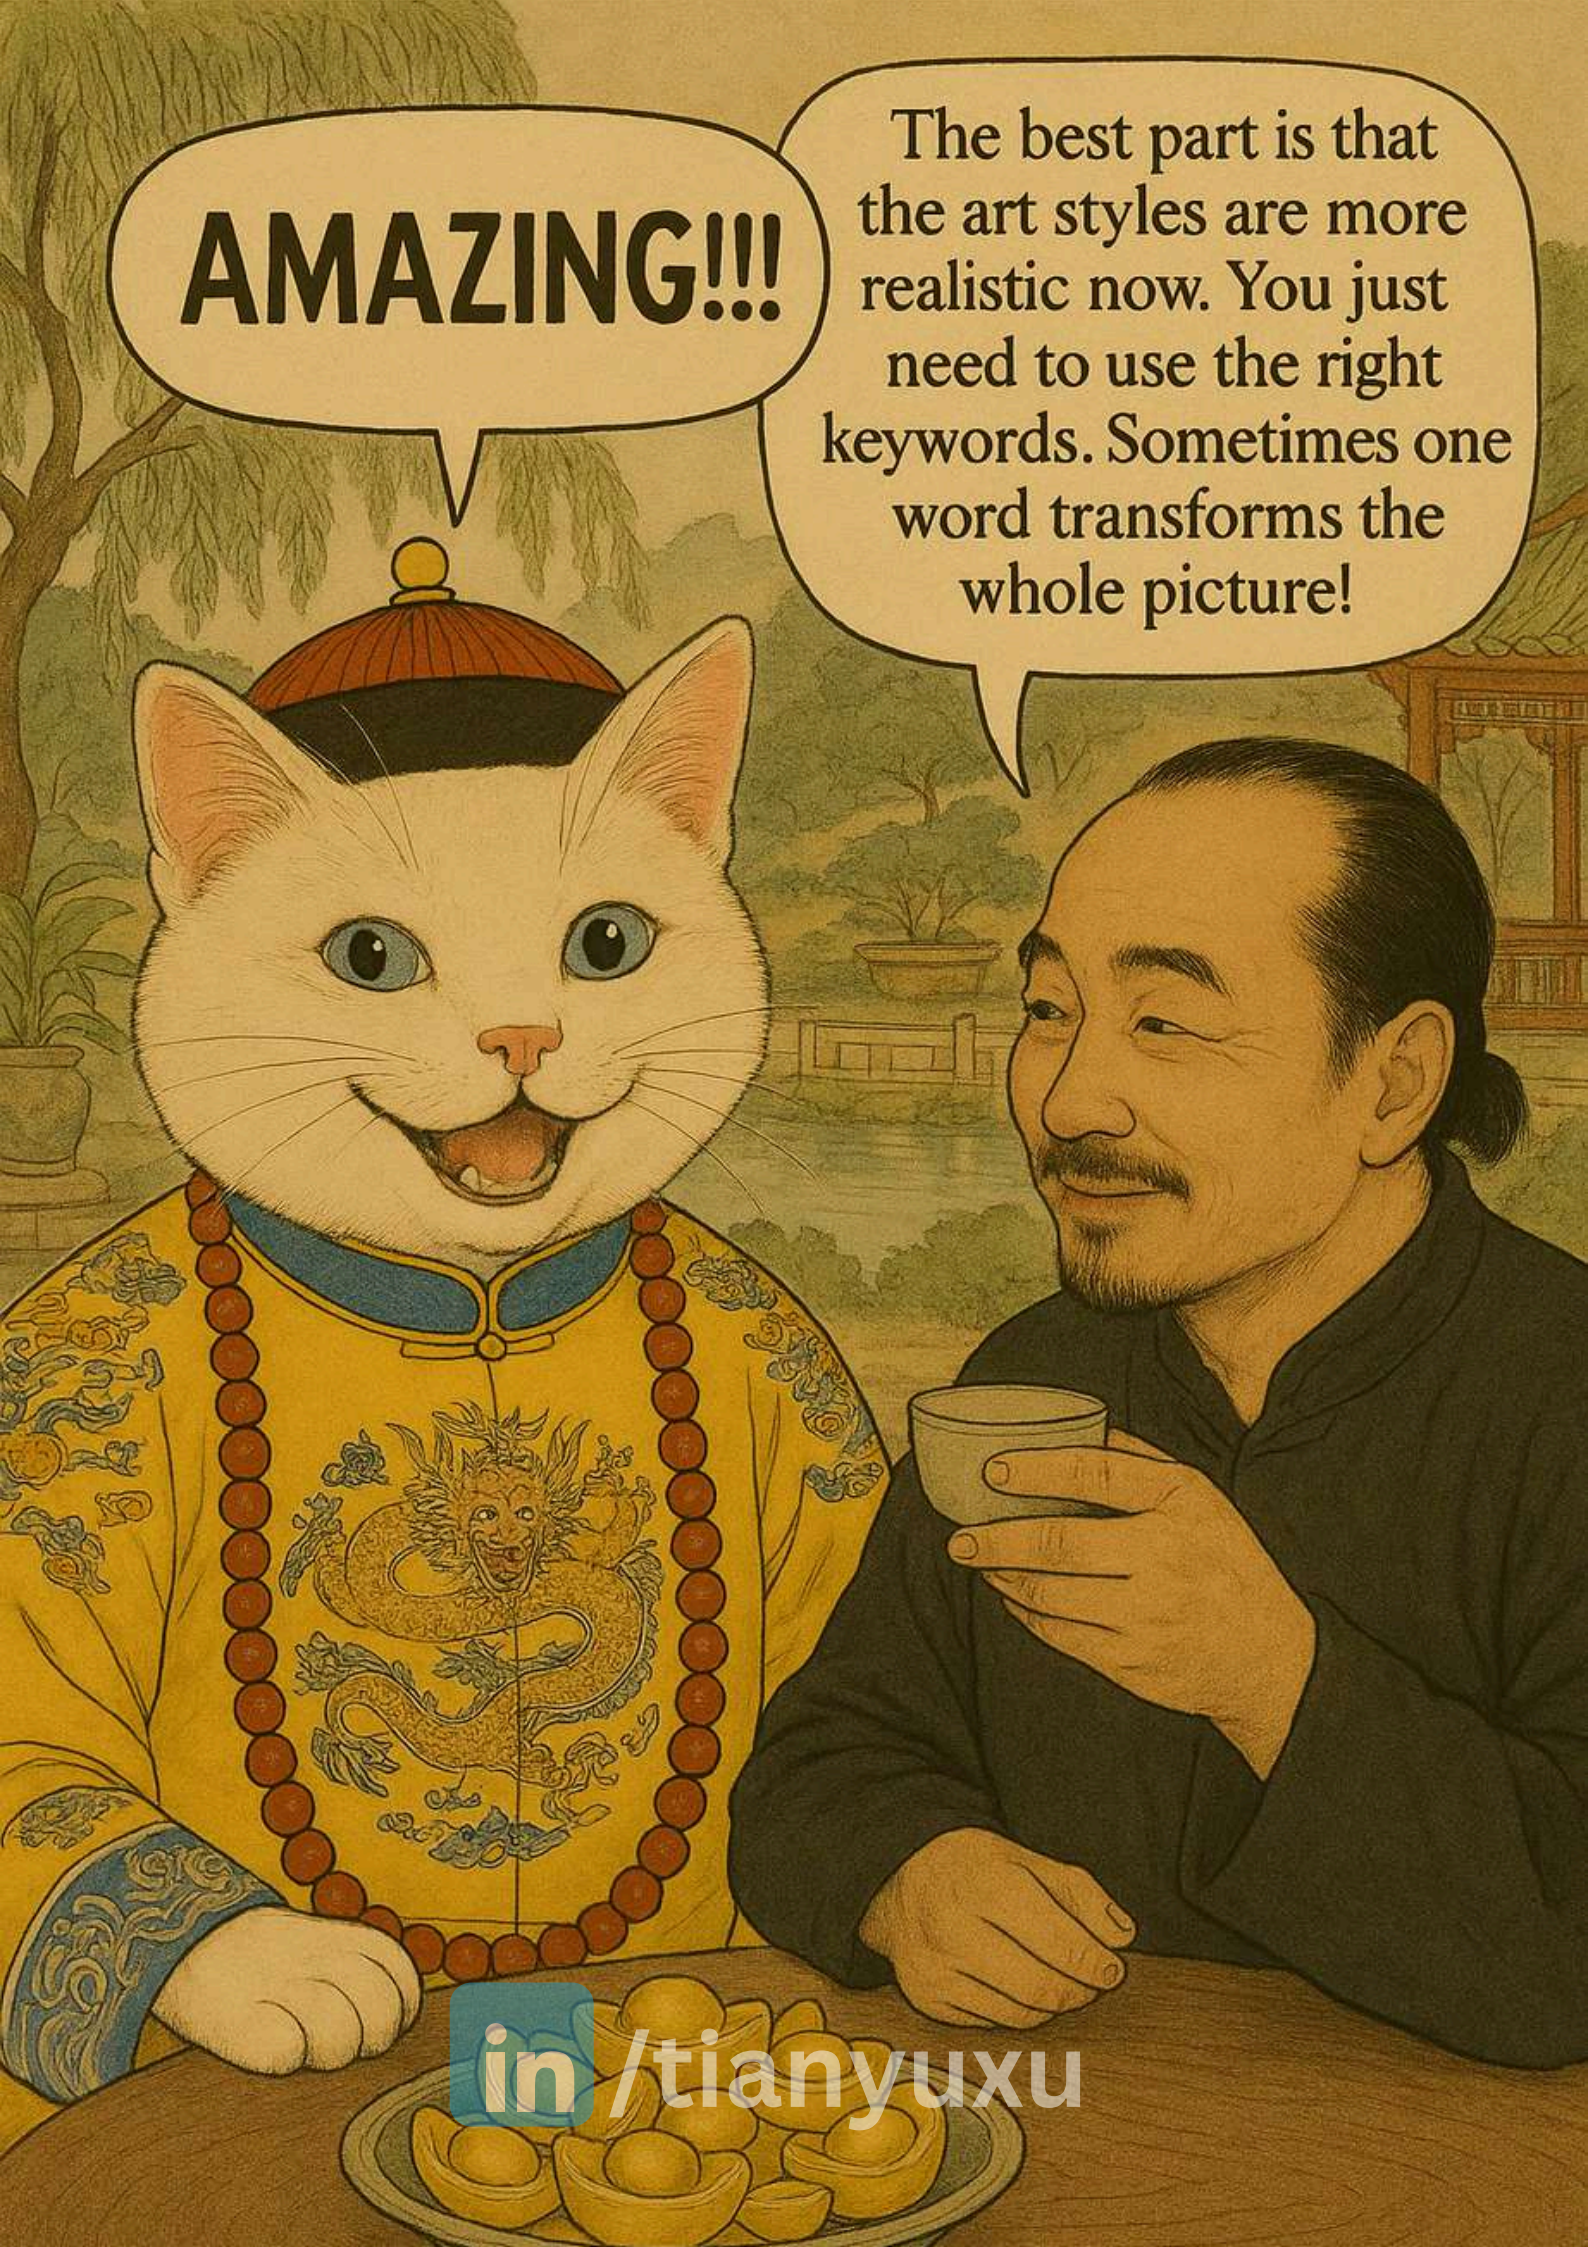




in /tianyuxu

Do you know GPT-4o can edit or remix images too? This is what I found most exciting. Let's start from my profile photo!
in /tianyuxu

in /tianyuxu

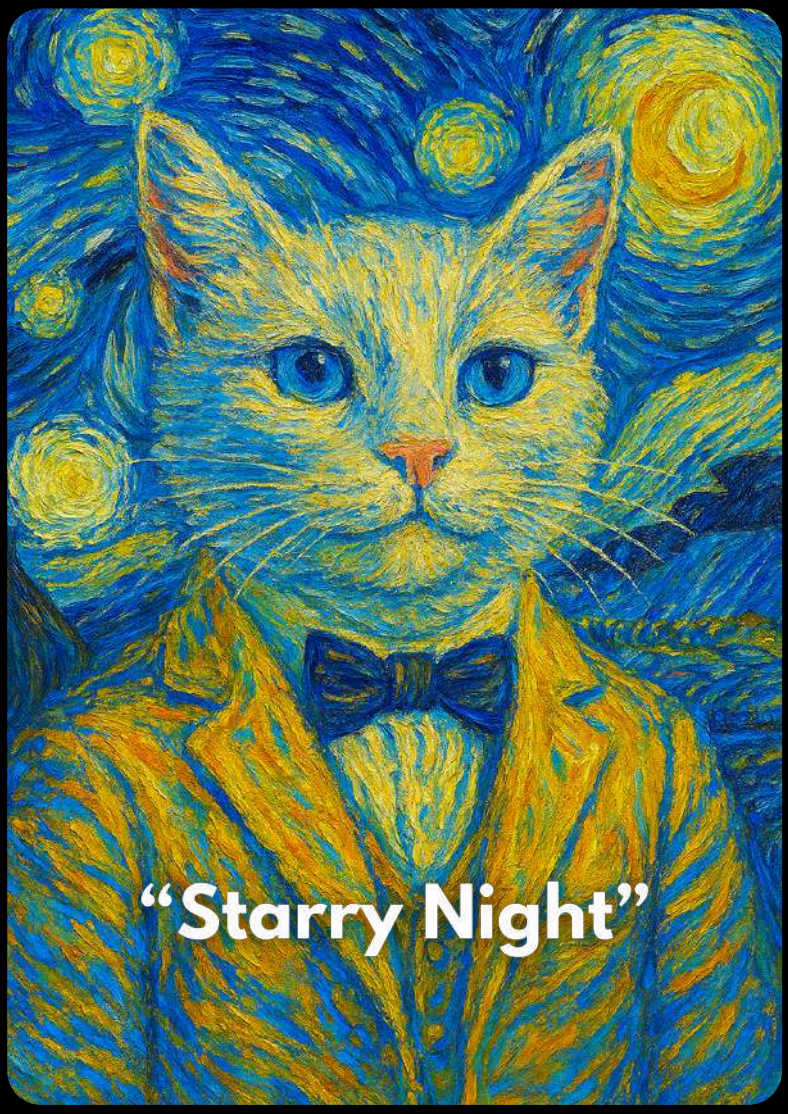


AMAZING!!!
The best part is that the art styles are more realistic now. You just need to use the right keywords. Sometimes one word transforms the whole picture!
in /tianyuxu

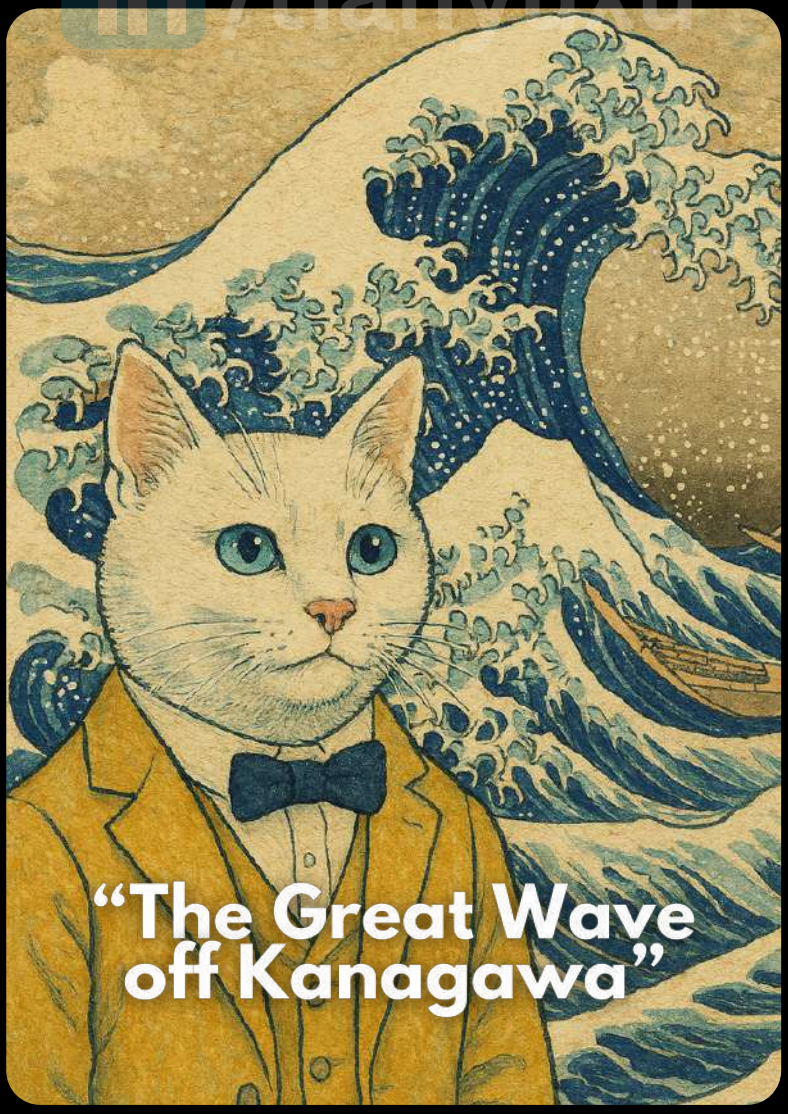
“Napoleon Crossing the Alps”

“Girl with a Pearl Earring”

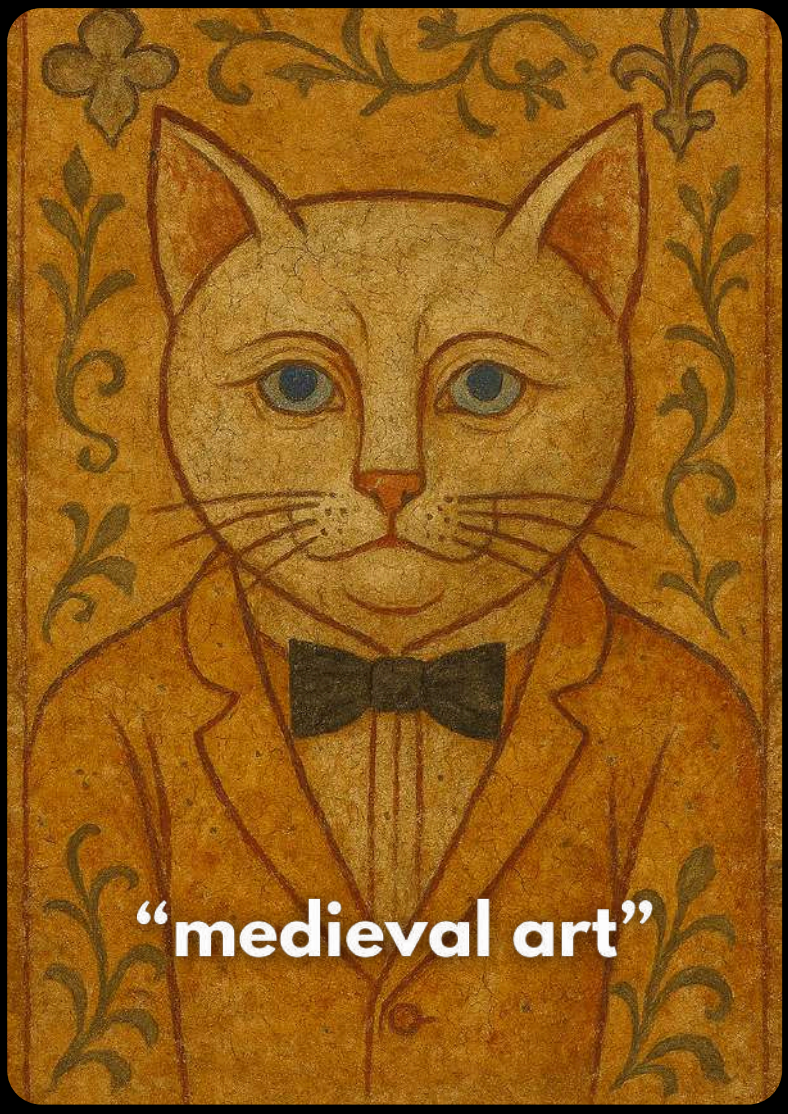
in /tianyuxu

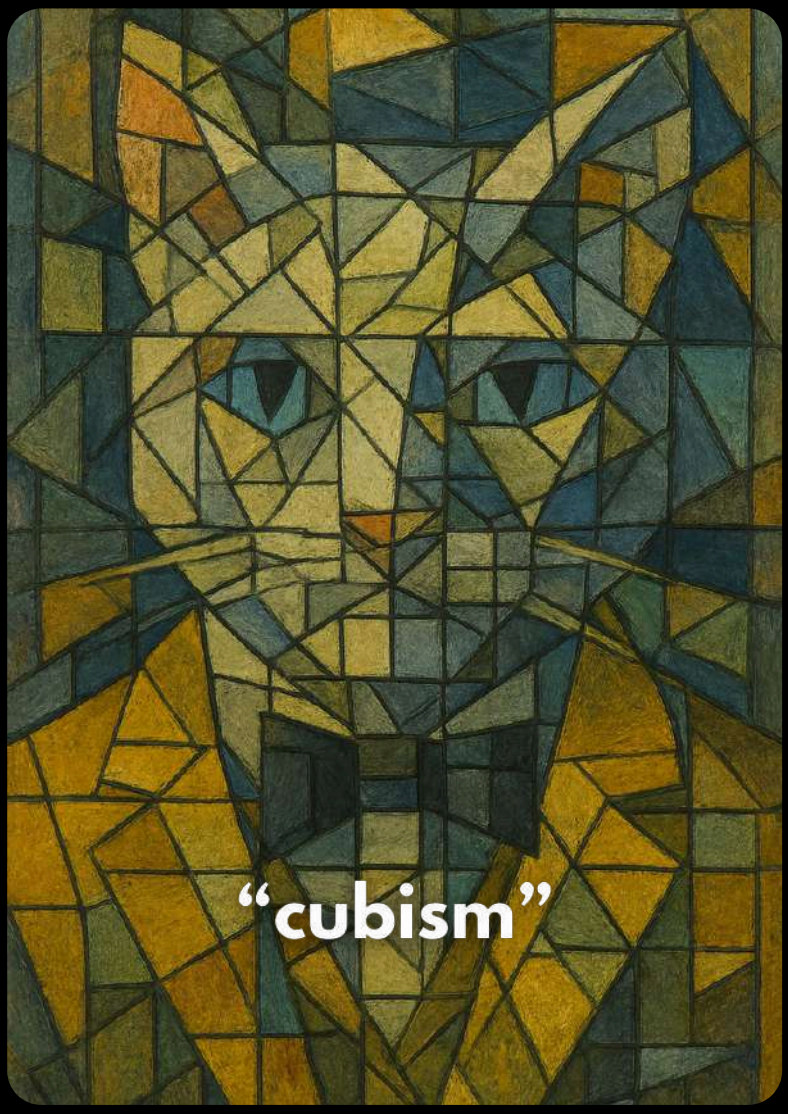


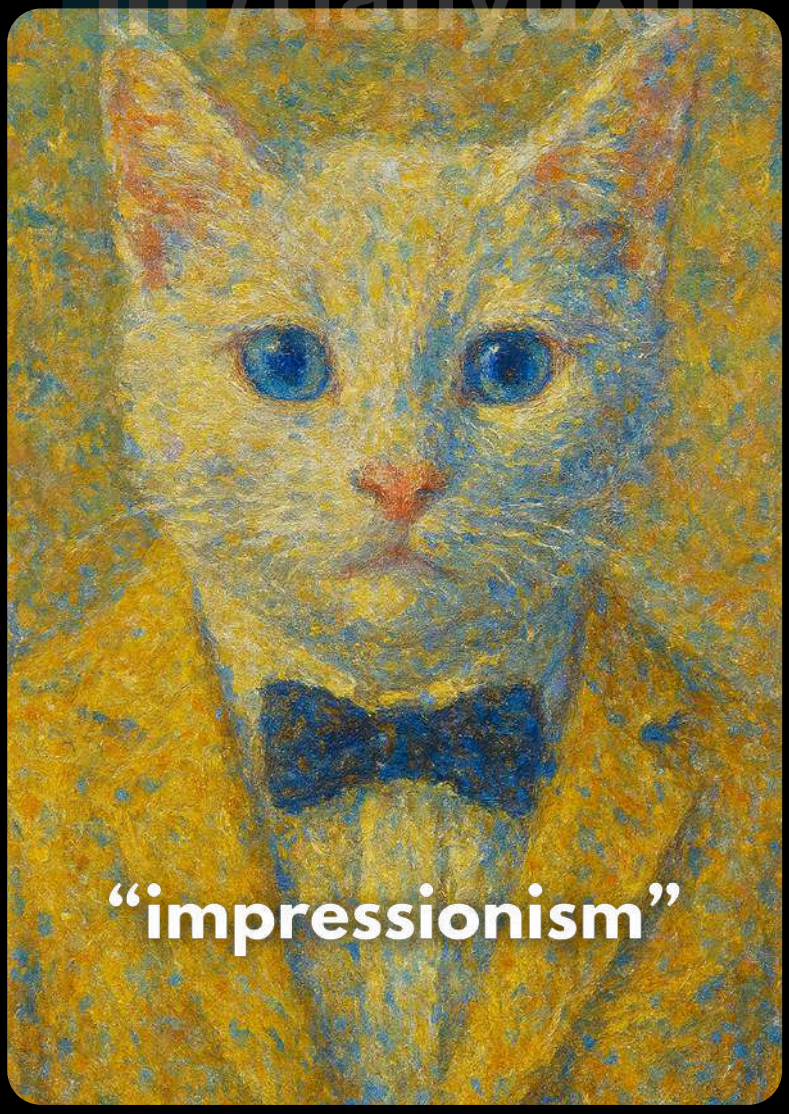
“Starry Night”



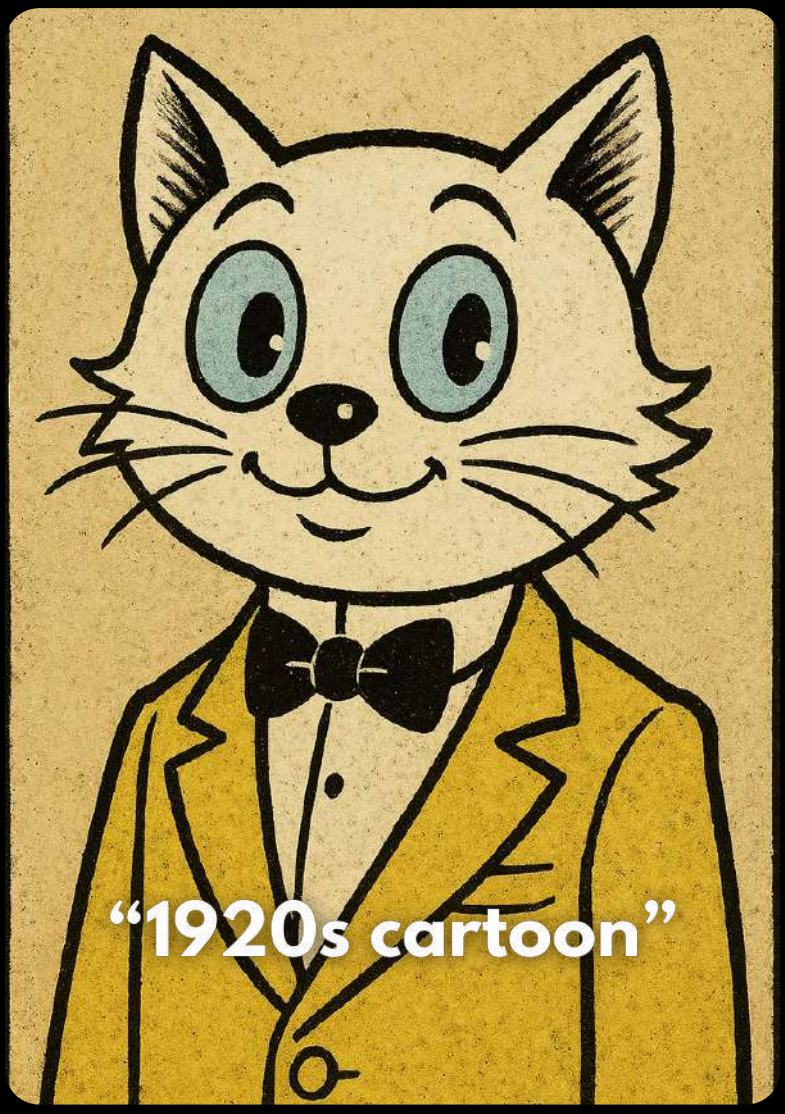
“The Great Wave off Kanagawa”



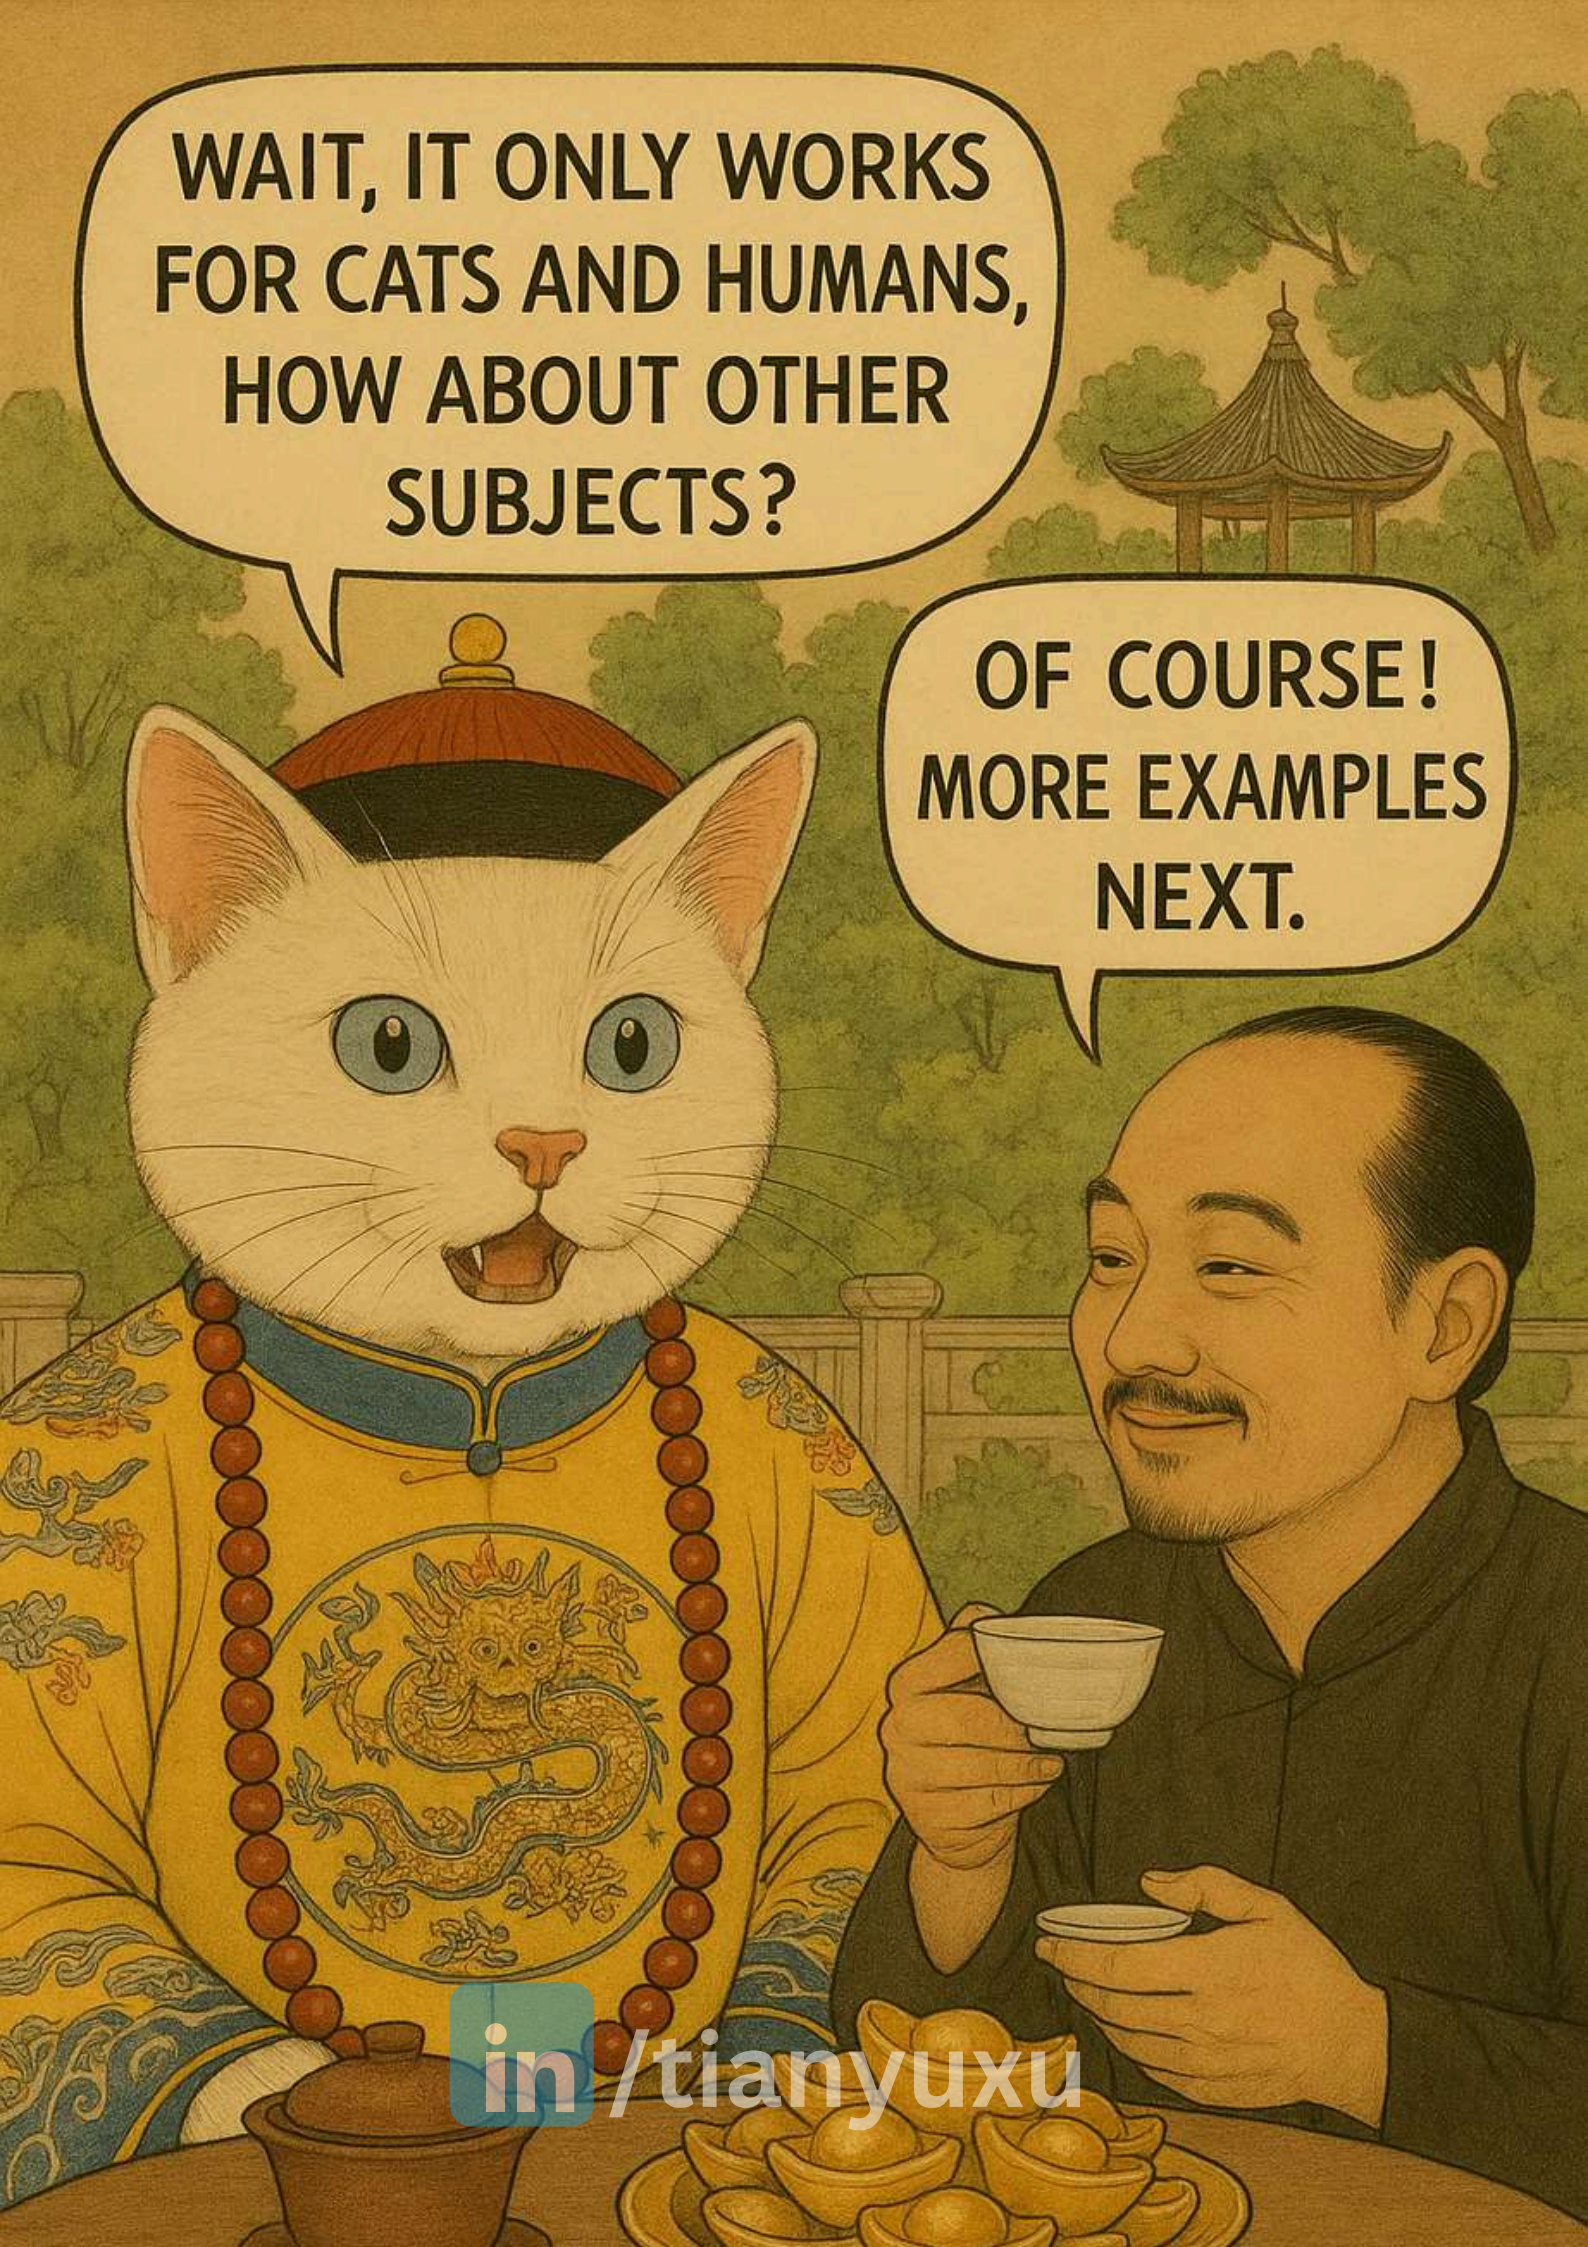




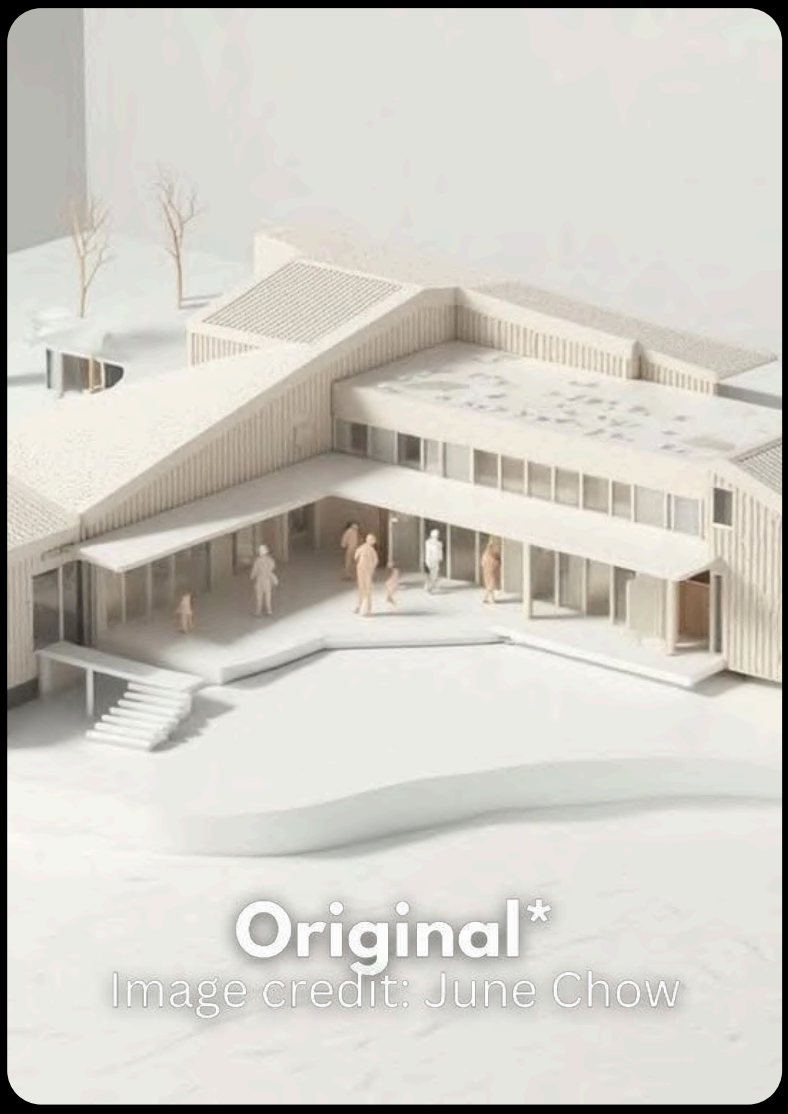
in /tianyuxu



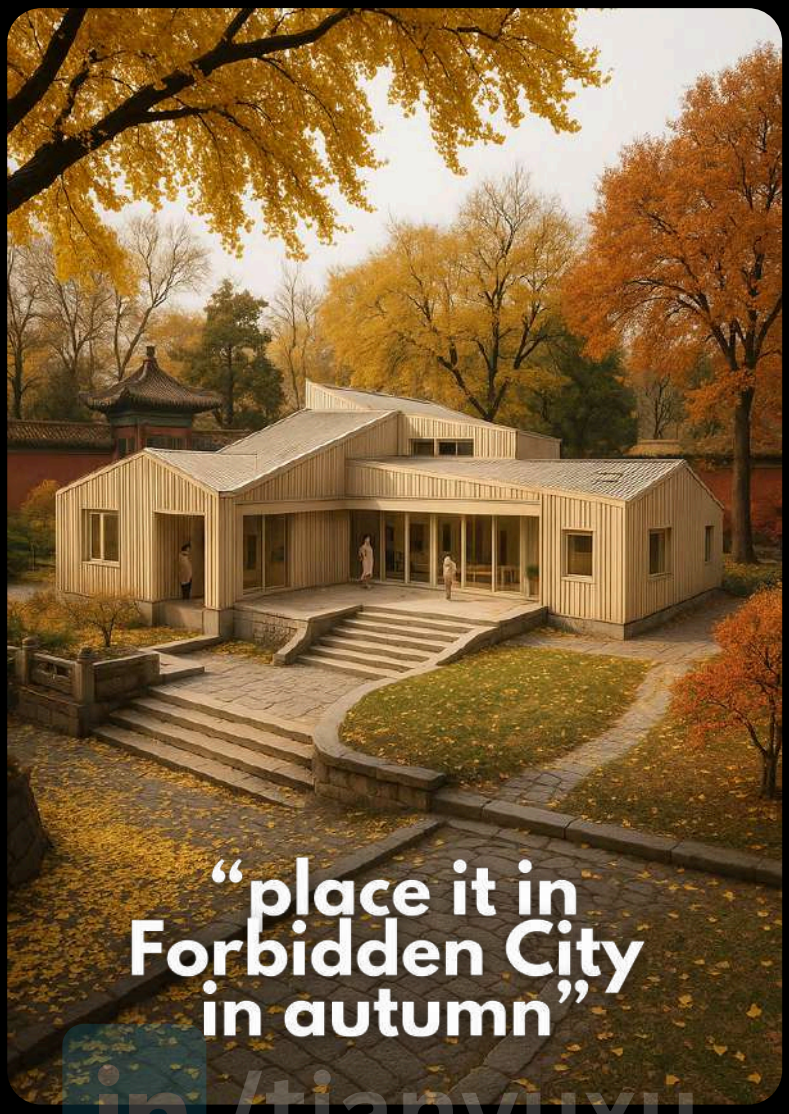
in /tianyuxu



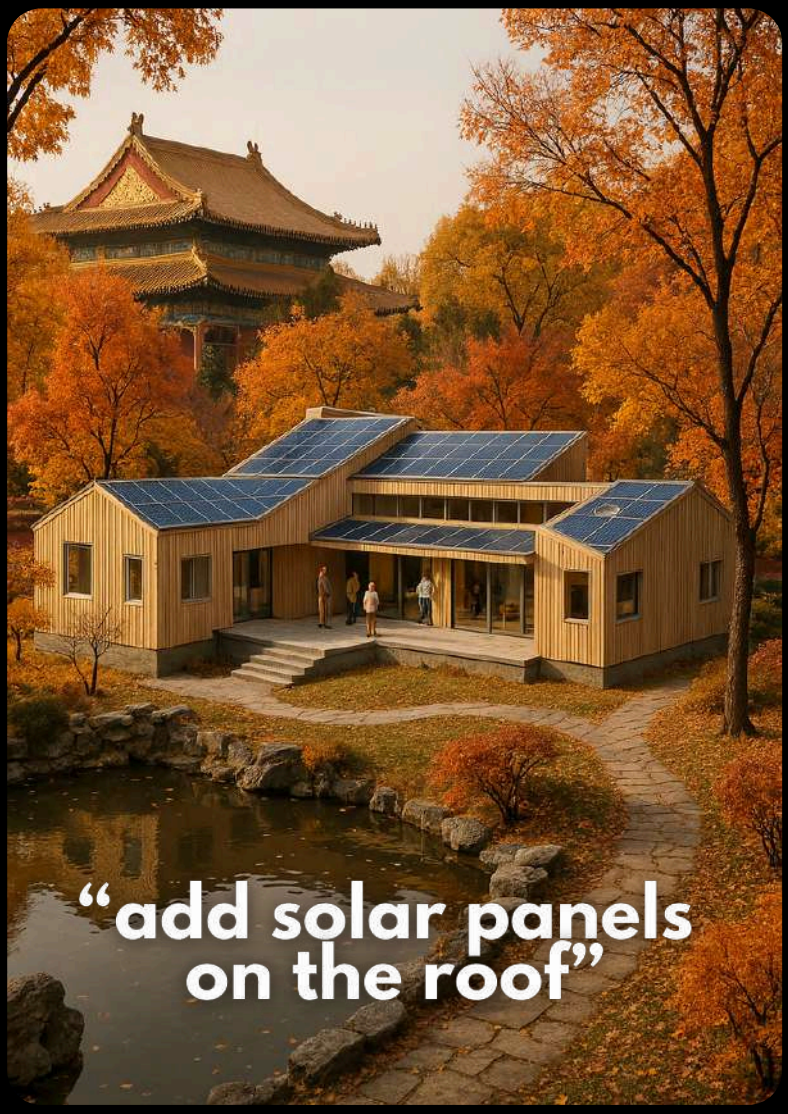
WAIT, IT ONLY WORKS FOR CATS AND HUMANS, HOW ABOUT OTHER SUBJECTS?
OF COURSE! MORE EXAMPLES NEXT.
in /tianyuxu



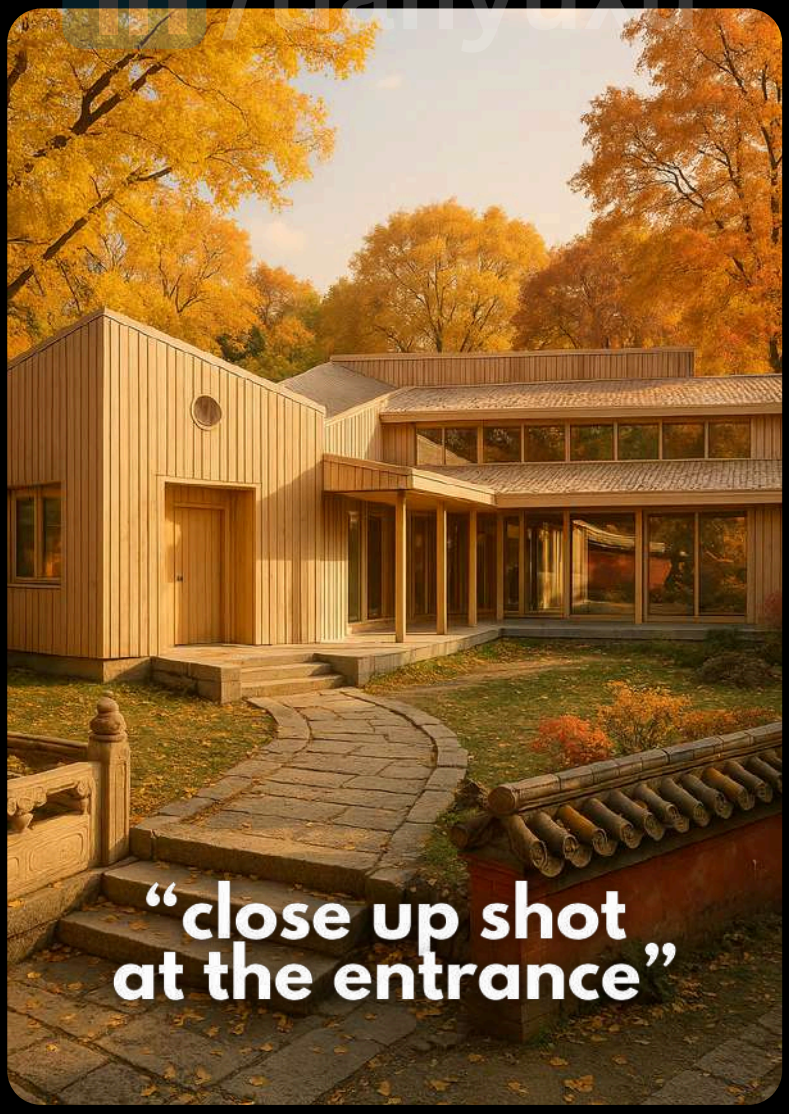
Original*
Image credit: June Chow



“place it in Forbidden City in autumn”



“add solar panels on the roof”



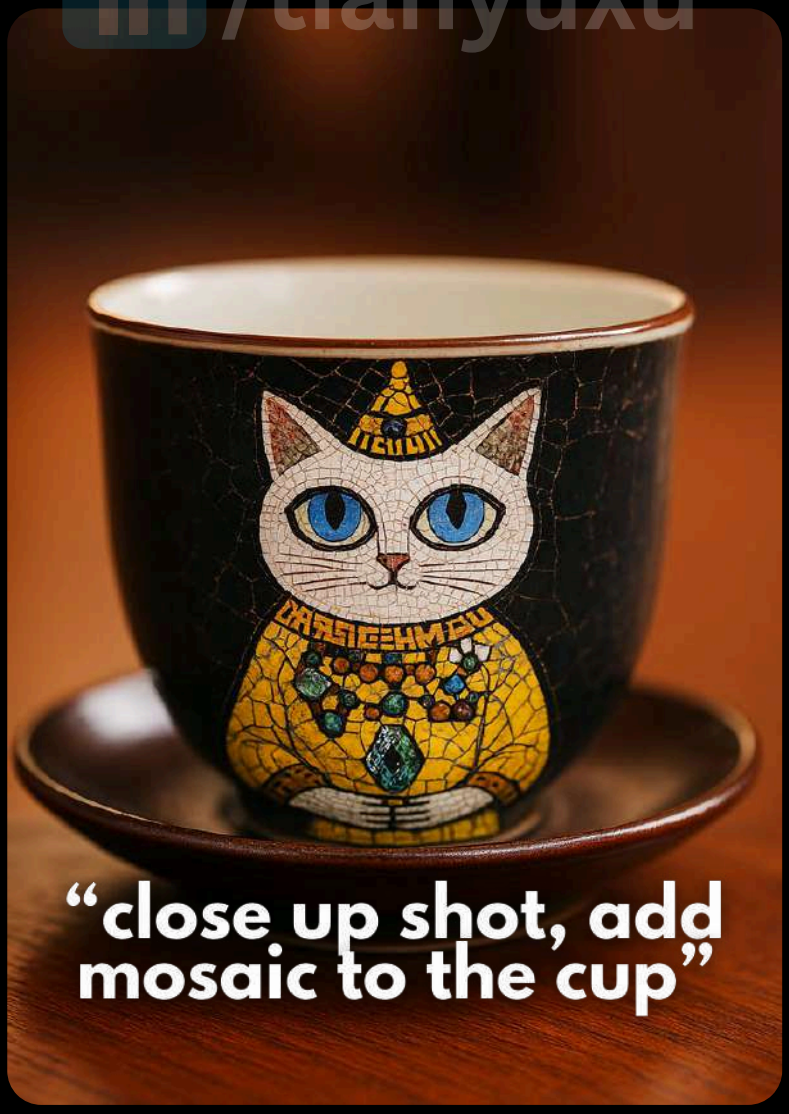
“close up shot at the entrance”

Source image #1
Generated with Midjourney

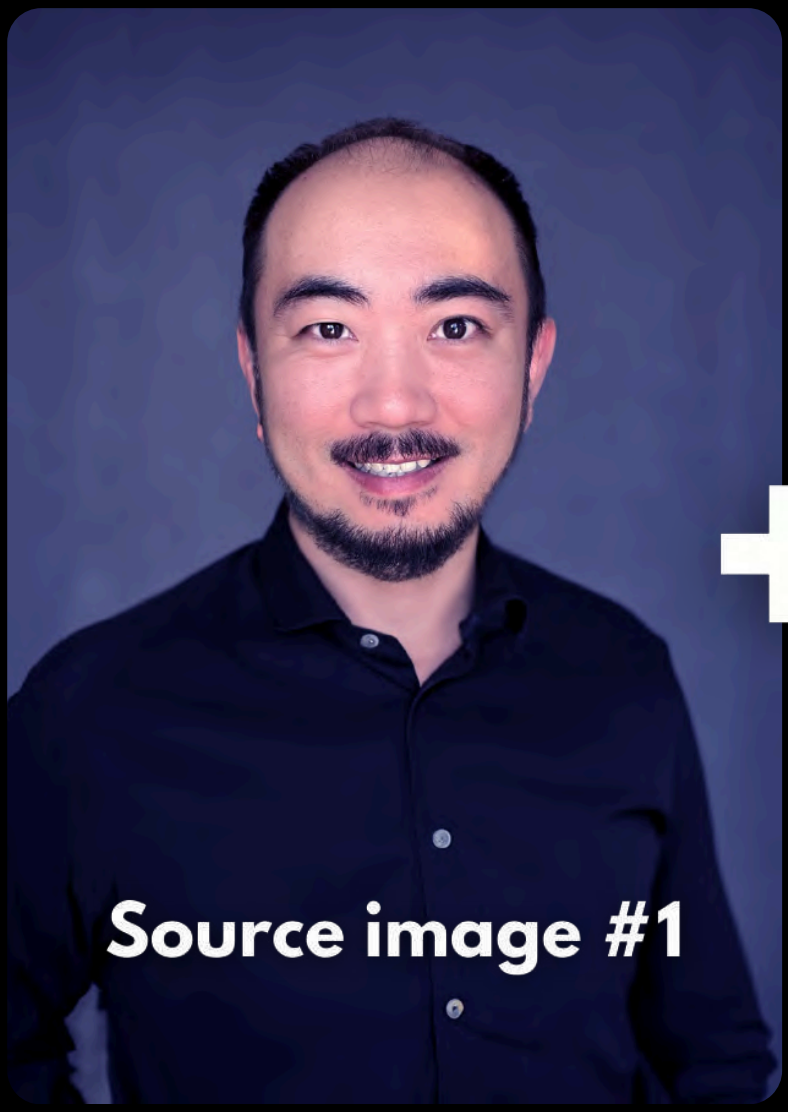
Source image #2
Generated with Midjourney

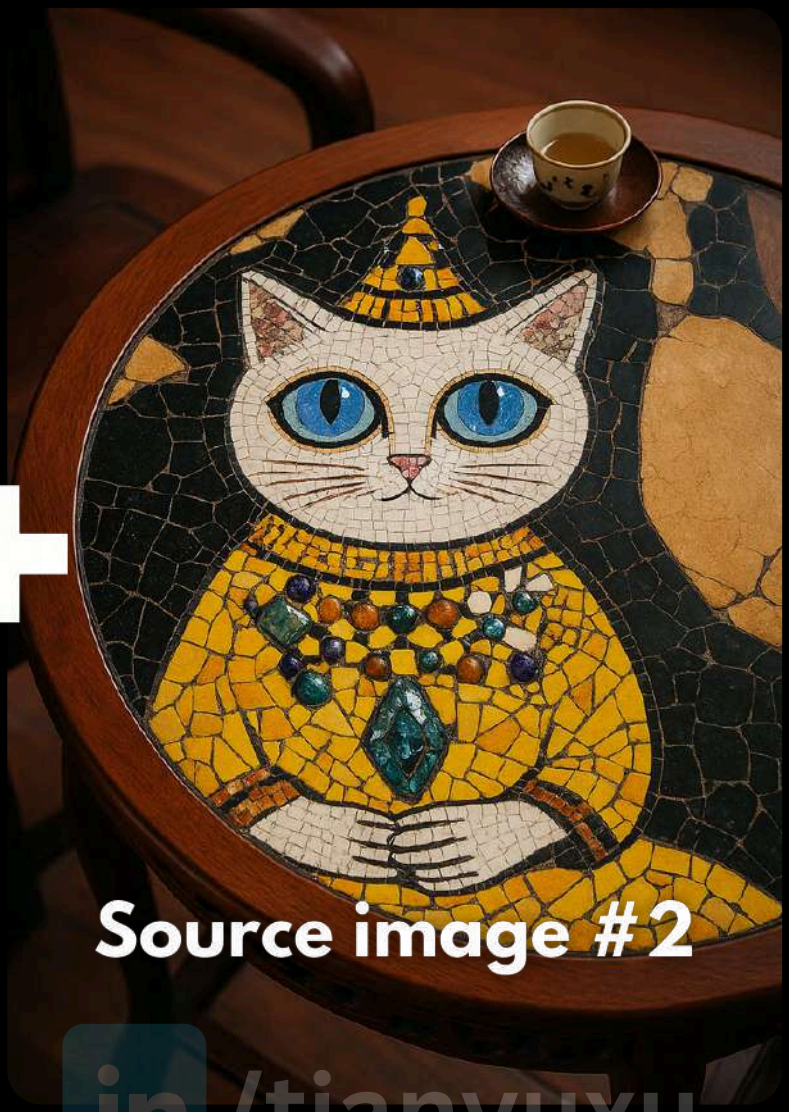
in /tianyuxu

“replace the table’s top with mosaic”



“close up shot, add mosaic to the cup”

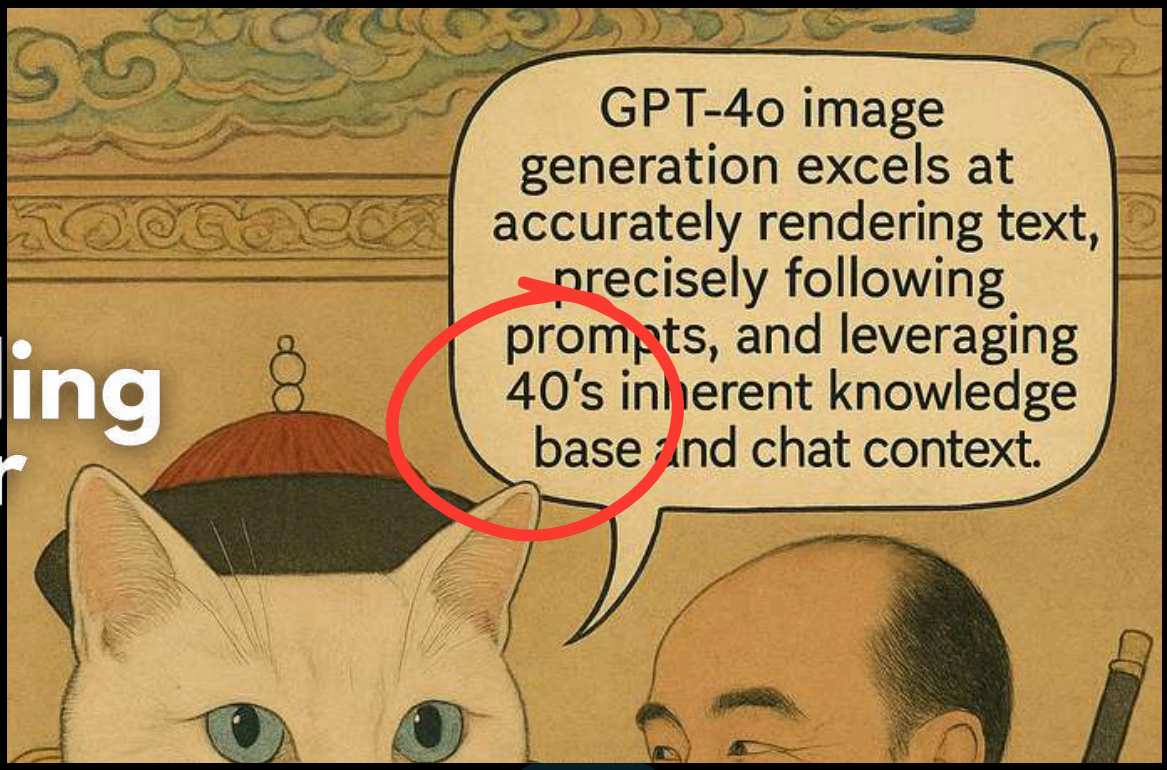




in /tianyuxu

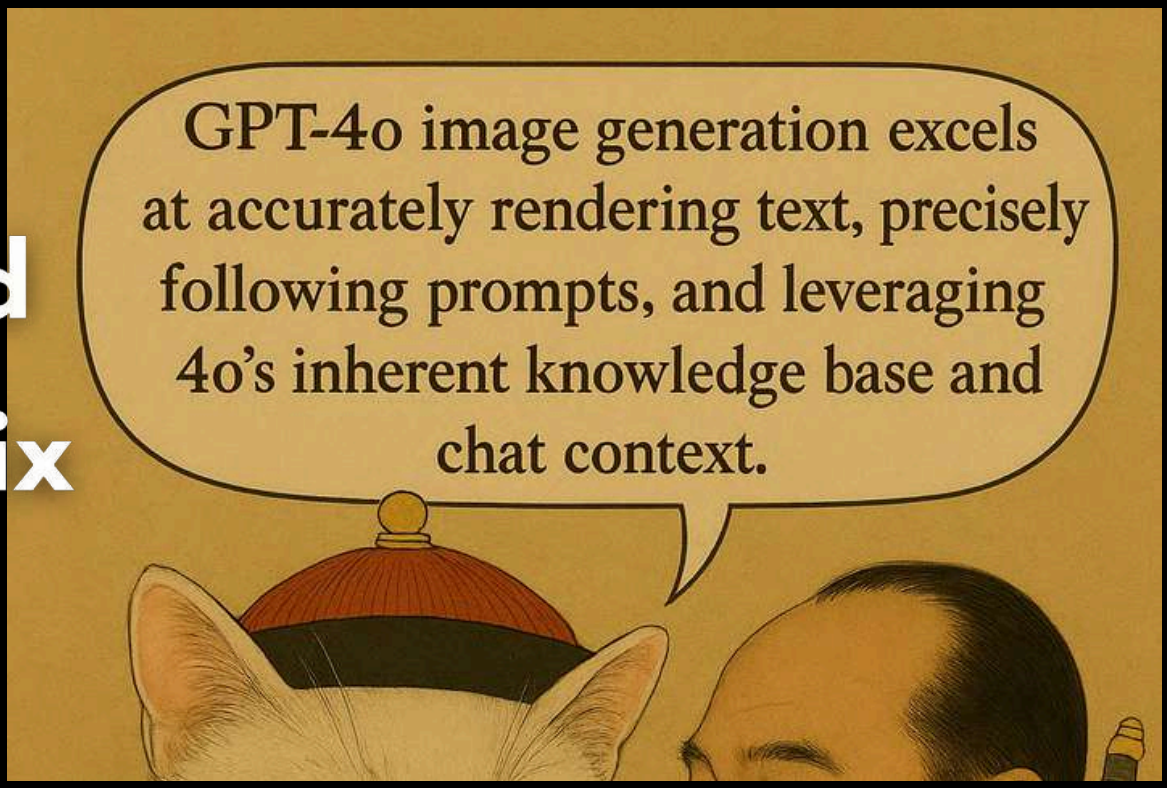
ONE MORE THING!

Spelling error

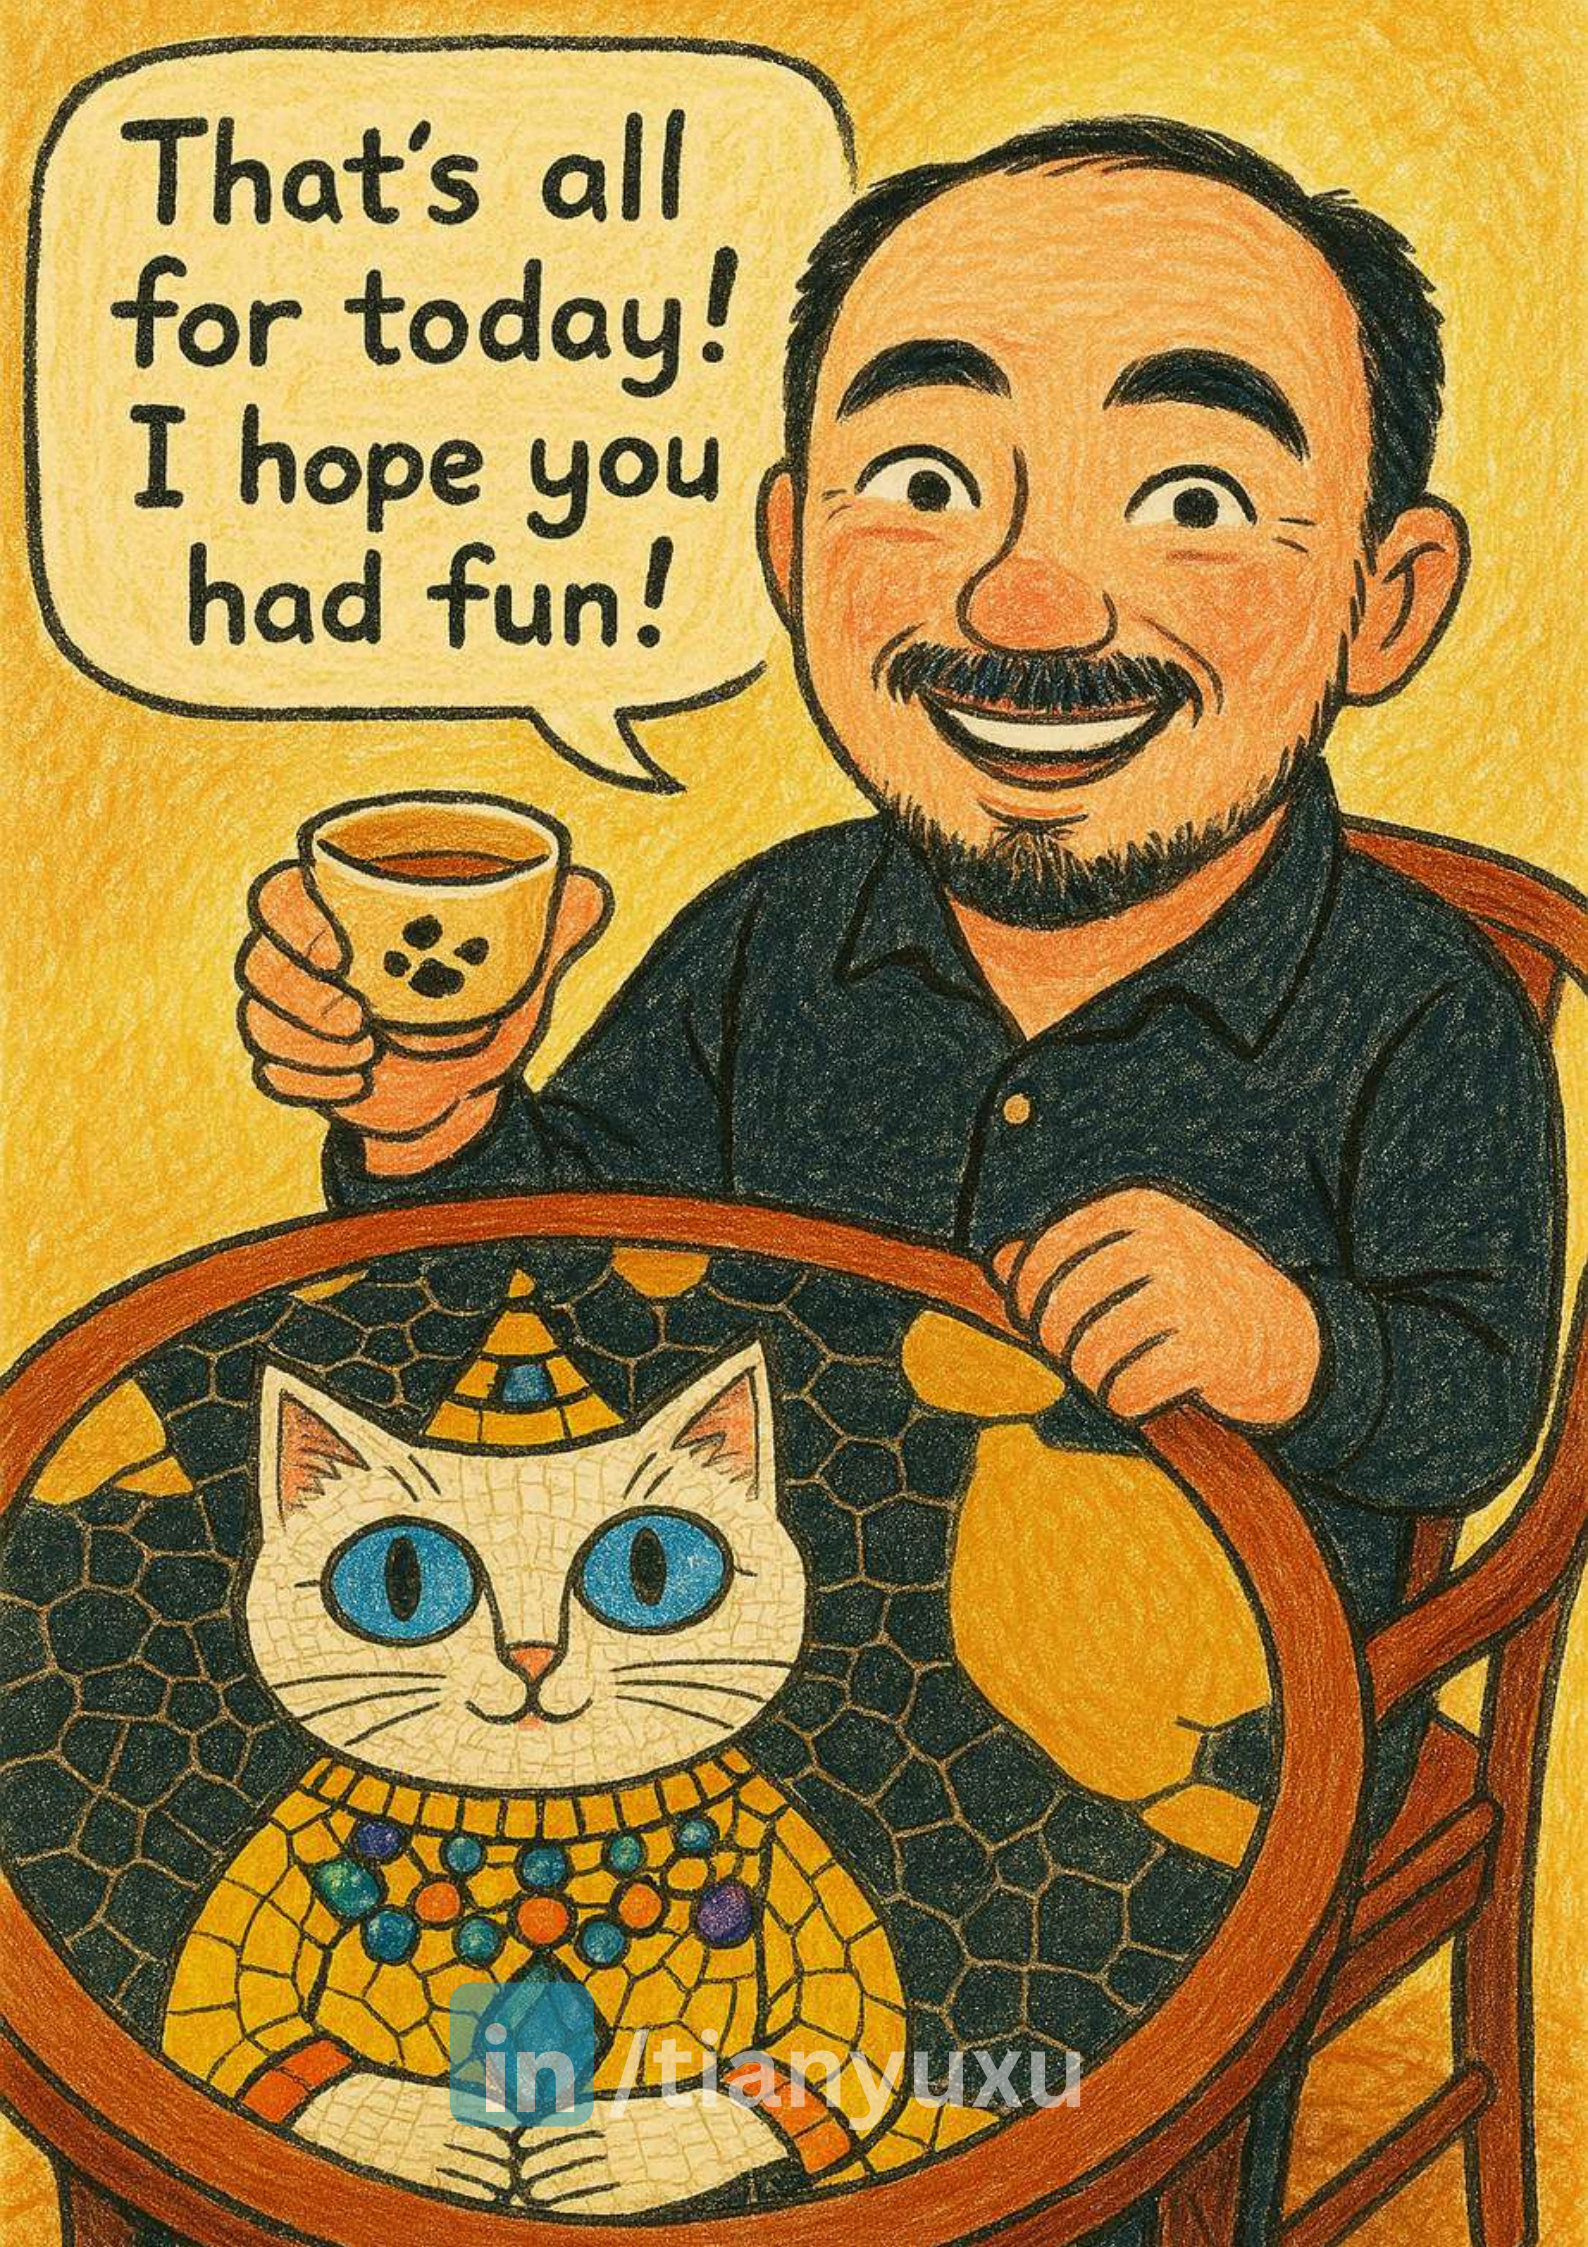


in /tianyuxu

Fixed with Remix



in /tianyuxu



That's all for today! I hope you had fun!
